

Good Morning All!

I hope you all had a nice Mother's Day @ home. Here we go with some suggestions for Week 2! – I hope you can enjoy it as much as possible and only do what you can. We all work at different speed/pace so do what is right for you. Sending positive thoughts to you all & if you can find the time, squeeze in the I'm Still Standing or Footloose Dance video each morning on Go Noodle to get you motivated!!

**Starlight – Unit 12a this week.** Read over the story again and complete the written activities that you hadn't yet done in class – D- Vocabulary E- Grammar : Conjunctions F- Writing Skills. Using Precise Language

For G : Planning a Procedure , use a personal experience, recalling when you made something – anyone who made a Solar System or a Viking Longship – this would be perfect!

**Spellings: SpellWell Week 24 Revision Week ...** take some time to look over the spellings from Week 17 – Week 23 and on Friday – let an adult have some fun, by picking a selection of 20 words from these weeks and testing you at the back of the book ! Good luck!

**Read at Home as normal each evening.**

**Irish:**

**Abair Liom : Aonad 14 – Ich 120**

J. Léigh scéal Shíofra K. Lion na bearnaí chun an scéal a chríochnú.

Write it out in neat, joined writing in Irish copy.

**Orally**, - look ahead to L. on page 121 and discuss the meaning of some of the words/ pastimes you see and maybe add your own to the list!

**4<sup>th</sup> Class – continue on with your verb booklet – some children are working on different verbs so work at your own pace and take the week to look at the one that is next on the list for you.**

**Léigh sa Bhaile – 3<sup>rd</sup> class – continue on as normal**

4<sup>th</sup> class – please answer the questions into your copy in nice, neat writing.

**Maths :**

**3<sup>rd</sup> Class – Chapter 5 – 2D shapes –** Work at your own pace and sit in a nice quiet area when doing your maths. Read the box at the beginning of the chapter more than once to make sure the important information about regular and irregular shapes is clear in your head. Also, remember, that a right angle is 90 degrees – which is the corner of a book, or a rectangle. Have some fun with this chapter and look for & discover different shapes inside and outside your house this week!

**4<sup>th</sup> Class : Revise Chapter 12 – 2 D shapes.** Go over each page and read over the information given. Fill in any grids or activities that have not been completed in the book.

**Chapter 19 : Begin 3D shapes. Just the first page this week.** Look at the 3D shapes listed and fill in the grid about their properties.

**For Fun – try to construct some of these shapes using Mini Marshmallows and some dry spaghetti!!**

**History – Unit 14 – Life in 18<sup>th</sup> Century Ireland**

**Just the first section.** Read p. 68 and 69 and answer the activities into your History Copy – maybe try to copy/sketch Daniel O' Connell onto the blank page for this Unit.

Best of Luck,  
Mrs. Lennon
