

Suggested Work for 8th June

Good Morning Everyone!

At this stage in the school year, we would usually be taking the time to wind down and enjoy plenty of outdoor time...This year is no different so although there's some suggested work below – apart from Maths, everything can all be done orally! As always, do what you can and be happy with the work you complete.

Gaeilge: Revision – we are not going to look at any more units in our Abair Liom. Instead, we go to the section at the back of the book. This is a very helpful section that is of great benefit to remind ourselves what we have looked at over the year and of important words and phrases.

Anyone who wishes to, could copy down some of the words/phrases given or put a copy of these pages into a folder to help them next year. Abair Liom for each class has this section at the back that is always great for reference.

Keep things very light this week & take a page a day and just read over the information given – some of the things you already know really well so just look over things like the adjectives on page 177, the meanings of the questions words p.178 and or the meaning of the verbs at 180-182. You don't have to sit down and learn any of this – just read over it and remind yourself of these important words. You will be going over them when you return to school.

Ag Súgradh – We had completed most of this book in class. It is nice to talk through them together and explain it as we go along. Seeing as you are finished your Léigh sa Bhaile, it might be nice to look over the last few stories in this reader before you hand it back on Friday.

English:

This is the final chapter of the book!

Chapter 16 Music and Sound

For those of you who can access Folens Online, this is the final Oral Language Lesson!

Combined Skills Book- 16A - **Electric Guitars (Poem)**

All questions can be answered orally

Maths

3rd Class : Funky Fun Trail at the end of the book - use a calculator to keep this fun and quick! Finally, A Quick Look Back 12 on page 176

4th Class :

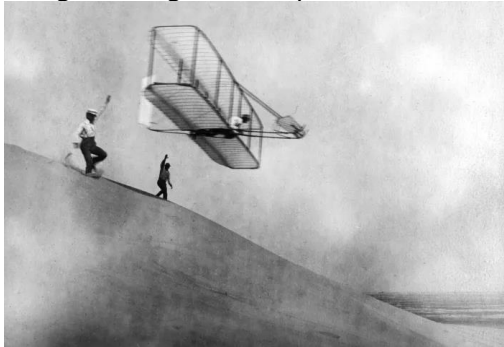

A Quick Look Back 10, 11 and 12

Both classes: Mental Maths - finish up with one last week in this book

History The Final Chapter! Amelia Earhart

Read about this influential character in aviation history - watch a video about her life and achievements by clicking on the blue link below.

This is a photograph of the World's first flight, taken in 1901 - Wilbur and Orville Wright designed the plane

One of the latest model of Aircraft to be developed in 2020

Video on the life of Amelia Earhart

<https://youtu.be/SITeCEuxZII>

85 years ago, Amelia landed in the Gallagher family field in Derry - she had hoped to land in Paris but a petrol leak forced her to make an early landing. She had left America 15 hours earlier. She spent the night in the Gallahers home before continuing on her journey the following day. See below Photographs!

Geography and Science

The final chapter - The Living Body

Reading all about the largest organ in our body - our skin!

Learn about our unique fingerprints - there are 4 types of fingerprint and we each must discover which type you have - look at the pictures in the book and examine your own to see which type you have.

Read about how messages are sent to our brains as soon as we touch things/ smell things. It is amazing really!

This chapter also explains how our lungs work and how our heart beats! The hot science sections of this chapter are extremely interesting - Enjoy

Visual Arts -

Draw a picture of a memory that stands out from your lockdown experience. Where possible, remember how we could use size and shading to make things look far away or closer, or even like they have a shadow. Maybe use a variety of crayons, pencils, paints and or materials to add as much depth to the picture as you can! Creating a picture like this from memory is a wonderful way of recording events - hopefully there's a spot on the fridge for it when you are finished!

Well done on all your hard work in Art this year - we had huge success on our inspection day and if you take a moment to look back over the things in your Art Portfolio - you can remember all the fun activities we took part in throughout the year. There are some very creative & impressive pieces in those folders.

Music & Religion

A lovely song to listen to & lovely accompanying video from the *Grow in Love* Programme. It is uploaded separately on the website.

P.E.

The final week of the Paws Programme - I have uploaded it again for anyone who might not have seen it a few weeks ago.

We would be getting ready for our Sports Day at this time of the year so if the weather is nice, it might be fun to have an egg and spoon race/ obstacle course at home in honour of it!

We are nearly there! The holidays are just around the corner....

Enjoy reading your reports this week and getting excited about your booklists for your new class next year!

Have a lovely week!

Mrs Lennon
