THIS WEEK

The children have reflected on the choices they make every day and how these choices affect their lives and the lives of other people. We are gifted with a conscience to guide us in making choices.

Read the poem 'Choice' together.

Choice

A rose doesn't wake
In the morning and say,
'I think I'll wear blue
Like the bluebell today.'

Or the thrush doesn't whistle,
'I'd rather not fly
So I'll swim like the swan
And glide gracefully by.'

Or the sheep who is chewing
The grass doesn't moan,
'I wish I could chew
Like the dog on a bone.'

I can choose what to do,
I think choosing is fun.
What to wear, what to eat,
When to walk, when to run.
I can choose to be friendly
With you and with you,
And you are a person
So you can choose too.
God gave us a choice,
We are specially blessed.
So thank you and help us
To choose what is best.

AT HOME

DID YOU KNOW?

The choices we make affect ourselves, other people and the environment. They also affect our relationship with God.

TIME TOGETHER

Chat Together

About choices that you make as a family. Do you make choices together or does one person make all the choices? Chat about what can happen when some people in the family don't agree with choices that are made. What could help in such a situation?

Invitation to Pray

Prayer to the Holy Spirit

Come, Holy Spirit, fill the
hearts of your faithful.
Enkindle in us the fire of your
love.

Send forth your Spirit and we
shall be created,
And you shall renew the face
of the earth.

Be Aware

Be aware of the choices you make each day. Try to make good choices. Take time to say thanks to those who make choices that help you.

Music :

Please continue to revise the tunes that Harry has kindly uploaded to our website. Rathmore Polka into the Rathkenny Rebels.

History :

Life in the Nineteenth Century Continued

Read about The Life of the Barrington Family. Answer Section A, B & C in the Questions at the end of the Chapter. **This can be done orally.** You might want to look back over the life of the O'Connor family from last week.

Geography & Science:

Unit 18 : Materials and Change (1st Section)

Looking at the definition of Solids, Liquids and Gases. Read about atoms and molecules in the Hot Science section.

Look at how materials can change depending on the force that is applied to them. Eg : potatoes can be mashed... some things can change back into its original form after a force has been applied, and others cannot. A good example for this would be looking at how butter is made

Answer the questions orally on page 106. **These can be answered orally.**

I hope you enjoy the activities to complete this week. Please email me with any questions you might have or work you would like corrected.

Have a lovely week & keep up those acts of kindness!
